

Pleas leave the Indiana State Law alone. The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

Indiana's Telephone Privacy law has improved my time at home because of so few calls. The Indiana State Law has been so effective I now only get possibly 1 call per week if that. In the past, prior to the law I would get as many as 3 or 4 per day.

This law allows for better family time and relations without interruption.

Please leave Indiana's Laws alone.
